SIMPLIFYING

**CARBON MANAGEMENT**

IN COMPLEX INDUSTRIES

## THE NEED FOR CARBON MANAGEMENT SOLUTIONS

In the face of stricter regulations and a growing focus on sustainability, businesses are expected to track, reduce, and disclose their corporate and value chain emissions.

Conventional tools like Excel fall short in capabilities to precisely map and measure carbon footprints, leaving companies ill-equipped to address their environmental impact. For larger enterprises, emissions data complexity makes manual or centralized reporting challenging, exposing them to the regulatory and societal risks of incomplete, inaccurate, or lacking data. Sustainability stakeholders lack levers to reconcile financial pressures with environmental goals and the adoption of low-emission practices.

### That's where Cozero comes in:

We simplify enterprise carbon emission tracking and management, aligning sustainability performance with financial management for comprehensive decision-making.

# DECARBONIZING TOGETHER

Cozero was founded in 2020 in response to the urgent need to help companies adopt sustainable practices and transition towards a low-emission future, aligning with the world's increasing emphasis on environmental responsibility.

Three co-founders, Helen Tacke, Fabian Schwarzer, and Tiago Taveira, embarked on this journey to empower enterprises to take control of their carbon footprint and decarbonization strategy.

Our team of experts, comprising climate specialists, data scientists, and technical professionals, is committed to enhancing the accuracy of emission accounting while simplifying the decarbonization process for these enterprises.

# A COMPREHENSIVE CARBON MANAGEMENT SOFTWARE TAILORED TO HIGH-EMISSION INDUSTRIES

Say goodbye to manual Excel reporting, inaccurate carbon footprint calculations, and unactionable decarbonization plans with the Climate Action Platform (CAP), an end-to-end solution for enterprises to control, reduce, and report on corporate and product emissions.

**Achieve carbon accounting efficiency** by saving time on data collection, easily engaging collaborators and suppliers, and improving the quality of scope 1, 2, and 3 calculations.

## BUILT ON INTERNATIONAL STANDARDS AND SCIENTIFIC FRAMEWORKS

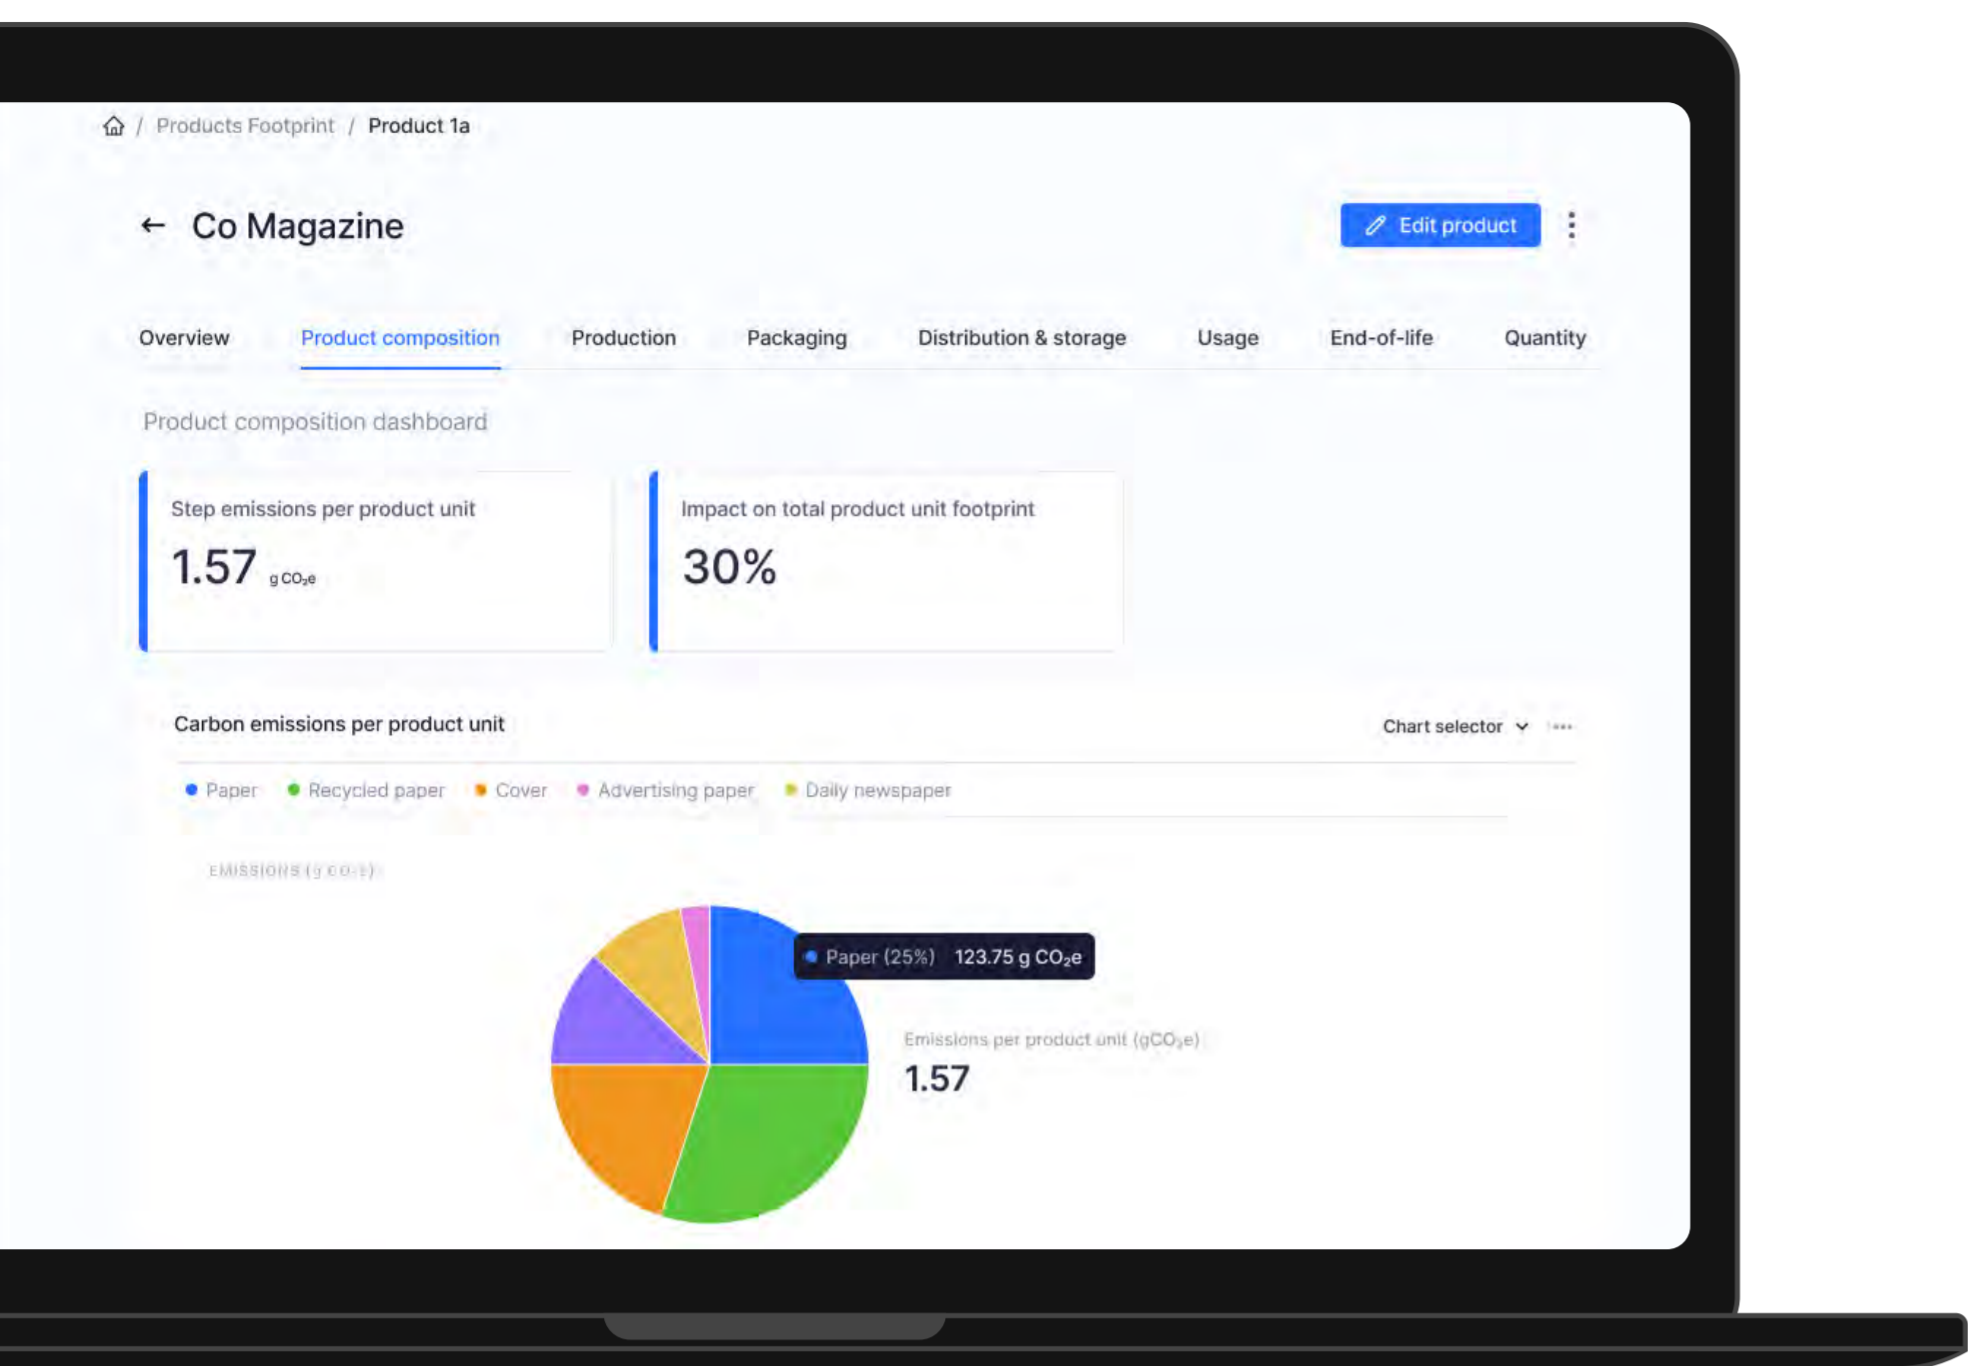

**CSRD**

ISO  14083

**Enhance your sustainability performance** by making informed decisions at the product, business unit, or location level and professionalizing and tailoring your decarbonization strategy.

Today, our Climate Action Platform manages more than **22 million tonnes of CO<sub>2</sub> emissions**, marking significant progress towards our ambitious goal of achieving a global reduction of **1.5 gigatonnes of CO<sub>2</sub> by 2030**. In recognition of our dedication to sustainability, we were honored with the prestigious German Sustainability Award in 2022.

### SUPPORTED BY EXPERIENCED PARTNERS

EUROPEAN UNION  
European Regional Development Fund

# WE ACCOMPANY MORE THAN 50 INDUSTRY LEADERS ON THEIR SUSTAINABILITY JOURNEY.

## ©forto

“We have been impressed by the quality of Cozero’s data and their willingness to go above and beyond to explain the methodology behind their calculations. We strongly share Cozero’s emphasis on partnership and value their focus on transparency.”

**PIA SCHWANENBERG,**  
Senior Sustainability  
Manager

**CHRISTIAN GROSSE**  
E-Delivery Chief Product  
Officer Europe

## MAERSK

“With Cozero’s technology we can provide our customers with detailed information on their emissions on every step and component of their international parcels' journey. This will help them to make smart choices and significantly reduce their GHG footprint.”

## »»» FUNKE

“With Cozero, we can record all of Funke Mediengruppe's climate data in a single platform. Scenario-driven, the tool then helps us initiate the best CO<sub>2</sub> reduction measures.”

**GUNDULA ULLAH**  
Head of Sustainability

# SIMPLIFYING **CARBON MANAGEMENT** IN COMPLEX INDUSTRIES

## **About Cozero**

Cozero is a leading provider of carbon management software for enterprises. Founded in Berlin in 2020 and winner of the German Sustainability Award 2022, Cozero empowers enterprises to take control of their environmental footprint and decarbonization journey. Its Climate Action Platform (CAP) offers seamless tracking, reduction, and reporting capabilities for corporate and product emissions in one end-to-end SaaS solution. Cozero's unique approach helps organizations in high-emission sectors align sustainability performance with financial management for comprehensive decision-making. Industry leaders like Maersk, Mammut, Nippon Express, Funke, Forto, Vodafone, and Rhenus Logistics are already steering toward responsible sustainability practices with Cozero.
